

# Grow Your Collaborative Practice

A One Day Workshop, September 23, 2011

Presented by Elizabeth Ferris, Collaborative Law Practice Growth Consultant

## Attendee Testimonials:

*"I am so glad that I had the opportunity to spend the day in a marketing seminar with Liz Ferris AGAIN. The skills learned are analogous to the original "aha" that one had when you made the shift to become a collaborative attorney and/or professional. It changes your perspective of how you present yourself, and your business to the world, and how the world sees you and your business. I would recommend this seminar to anyone interested in creating more economic wealth and/or satisfaction in their lives.*

*My first task will be to clarify my vision and mission- from there everything needs updating!"*

*~ Allison D. Hockman, Esq.*

---

*"In one day, Liz Ferris's pointed presentation, took me to another level in the development of my business and marketing plan. In addition to helping me focus on my broader value statement, Liz's ideas are practical and task oriented. I left the workshop with very exact and doable next steps toward my goals to grow my practice in a way that is consistent with my passion and purpose."*

*~ Helen Stein, Esq., Certified Family Law Mediator*

---

*"My take-away from today's fabulous workshop was about a cognitive shift in my communication style. I plan on using my words more efficiently in describing how the "other" will benefit from Collaborative Law, rather than what I, as the professional, bring to the process.*

*A follow-up seminar is not to be missed!!"*

*~ Sammi Siegel, Ph.D.*
